

Maintenance contracts

for COSYS and PFC power factor correction system

APPL 1076ERS

Your Socomec COSYS power factor correction system allows you to achieve significant cost savings on your energy bill, protects your equipment, and extends its operating lifetime.

Your electrical installation evolves. Environmental and operational changes, aging equipment, etc., are all factors that have an impact on your power consumption.

Within our maintenance contract, Socomec Experts take action for:

- preventive maintenance on your system,
- checking the correct sizing of your COSYS PFC,
- corrective intervention in case of system failure.

Key points

- > Checking hot points, clamps and connections
- > Checking that the multipoints are correctly connected
- > Checking and updating the regulator parameters
- > Service report with recommendations
